Jordan M. Rivera

Newark, NJ | jordan.rivera.dev@example.com | (555) 014-2278 | github.com/example-jrivera

SUMMARY

Front-end leaning full-stack developer with 4 years of professional experience building customer-facing web applications in JavaScript and TypeScript. Strongest in React and Node.js. Comfortable owning a feature from API design through UI delivery. Looking for a mid-level product engineering role.

TECHNICAL SKILLS

Languages: JavaScript (ES2022), TypeScript, HTML5, CSS3, SQL, some Python

Front end: React, Redux Toolkit, Next.js, Tailwind CSS, Vite, responsive design

Back end: Node.js, Express, REST API design, PostgreSQL, Prisma ORM

Tools: Git, GitHub Actions, Figma, Postman, Jira, Vercel, Docker (basic)

PROFESSIONAL EXPERIENCE

Front-End Developer — Brightpath Retail Group, Jersey City, NJ
March 2023 – Present

• Rebuilt the product catalog page in Next.js, cutting largest contentful paint from 4.1s to 1.6s and lifting mobile conversion 12% quarter over quarter.

• Designed and shipped a shared component library used by 3 product teams, reducing duplicated UI code across the front-end monorepo by roughly 30%.

• Partnered with the design team to bring the checkout flow to WCAG 2.1 AA, resolving 40+ accessibility issues found in an external audit.

• Mentored two junior developers through their first six months, including weekly code review sessions.

Junior Web Developer — Halden Digital Studio, Newark, NJ
June 2021 – August 2022

• Built and maintained marketing sites for 9 small-business clients using React and headless WordPress.

• Automated the client deploy process with GitHub Actions, taking a manual 45-minute release down to about 6 minutes.

• Wrote the Express endpoints backing a lead-capture form that handled roughly 2,000 submissions per month.

PROJECTS

TrailLog — A hiking journal PWA. React + Node + PostgreSQL, offline support via service workers. About 300 monthly active users.

ChartKit — An open-source React charting wrapper around D3. 140 GitHub stars; I review and merge community pull requests.

EDUCATION

Kean University — Coursework toward a B.S. in Computer Science, 2019 – 2021. Completed 68 credits; left to take a full-time developer role. Degree not yet completed.

Relevant coursework: Data Structures, Web Client-Side Programming, Database Systems.

CERTIFICATIONS

- freeCodeCamp Responsive Web Design (2021)
- Meta Front-End Developer Professional Certificate (2022)
