Create a Game in JS: Live Links

Anthony Bayate | Kean University | Web Client-Side Programming | Games 1-4 (Tasks 1-7)

Game	Tasks completed	Link
Game 1: Nebula Defender (space shooter)	Task 1 (rapid-fire power-up, top-5 localStorage leaderboard); Task 2 (boss at 1000 pts, custom look, name on GUI)	https://ab-js-game-arcade.vercel.app/game1-space-shooter/
Game 2: Synthwave Breakout	Task 3 (P to pause, falling power-ups: wide / slow / sticky / extra life); Task 4 (top-5 initials leaderboard, custom look, name on GUI)	https://ab-js-game-arcade.vercel.app/game2-breakout/
Game 3: Labyrinth Escape	Task 5 (coins gate the exit, patrolling guards); Task 6 (time-boost, freeze and speed power-ups, custom look, name on GUI)	https://ab-js-game-arcade.vercel.app/game3-labyrinth/
Game 4: Void Runner (my own game)	Task 7 (double-jump, dash, combo, near-miss bonus, magnet and slow-time power-ups, custom look, name on GUI)	https://ab-js-game-arcade.vercel.app/game4-void-runner/
